

## Online Tutoring Policy

This online policy should be read with the full safeguarding policy.

All our tutors, whether tutoring face to face or online are carefully vetted, reference checked and all have a current DBS check.

To protect our students and tutors receiving/providing online tuition:

- All communication with the student must go to parents/carers emails, including online invitations to attend an online platform for the tuition, such as Zoom.
- Parents/carers need to be in the house whilst tuition is occurring (as with face to face tuition).
- Doors to the room where tuition is happening should be open to allow oversight of the session by the parent/carer.

Should further clarification / detail be required Tutor My Kids is able to do so upon request.
